#	Title	Description	Presenter	Day	Date	Time
901A	Dexter Axles	Axles: The theory behind getting from place to place and stopping when you want. Key maintenance and safety tips to give many miles of pleasant travel. Service you may do yourself if desired. Technological advancements now available.	Bill Snider	Mon	6/25	10:30 AM
901B	Dexter Axles	See 901A.	Bill Snider	Wed	6/27	9:00 AM
902A	Micro-Air	The Micro-Air EasyStart is a revolutionary product, popular with Airstream owners. It allows you to start and run one or two A/C units on a limited 30A power source, like a single 2000W generator or inverter, when it otherwise would have required 50A. EasyStart even significantly quiets the compressor startup for better sleep. Please our live seminar to learn more about EasyStart from one of the design engineer.	Matteo Giovanetti	Tues	6/26	1:30 PM
902B	Micro-Air	See 902A.	Matteo Giovanetti	Thurs	6/28	10:30 AM
903	Walker Surge Protectors	How to protect your trailer from electrical hazards.	Greg Walker	Mon	6/25	3:00 PM
904A	Mary Kay - Fighting the Signs of Aging	Mary Kay offers a line of unique products that helps you have the healthiest and best-looking skin possible. This seminar will include a full description of our anti-aging skincare products, both for your face and your body. Information on how and when to use each product and the benefits you can expect. Questions are welcomed. Expect a lively discussion. There will be a door prize or two, depending on the number of attendees. We look forward to meeting you and helping you with your skincare needs.	Sondra Nelson	Mon	6/25	9:00 AM
904B	Mary Kay - Fighting the Signs of Aging	See 904A.	Sondra Nelson	Wed	6/27	3:00 PM
905	Smart Plug Systems	SmartPlug's cordsets/inlets offer maximum safety and ease of use. Our superior design pushes straight in – No hassle finding the right alignment. Spring loaded side latches automatically lock the plug into place – No plastic lock ring to cross thread or break. No overheating – SmartPlug pins and clips efficiently transfers power with over 20X times the metal-to-metal contact vs. the twist-type systems.	Terry Billicano	Mon	6/25	1:30 PM
906	Tele-Steps	Learn how these ladders function, highlighting of the many patented features, history of serving our country and law enforcement, storage capabilities, and how to safely and easily access your roof and slide outs. Live demo with the different RV models. Audience participation. Give away at the presentation.	Shawn Reeves	Tues	6/26	9:00 AM
907	Equalizer Hitch	History of weight distribution, How and the Equalizer hitch is made, Where it is made. Benefits of sway control in different situations while traveling.	Kim Dewsnap	Tues	6/26	3:00 PM
908A	Create a Softer, Smoother, & Safer RVing Experience	Blue Ox presents a seminar designed to educate consumers on weight distributing hitches, their features and advantages over conventional hitches, and how using one can increase comfort, safety & stability resulting in a more enjoyable RVing experience. Tips for towing and Q&A.	Kim Landholm	Thurs	6/28	1:30 PM
908B	Create a Softer, Smoother, & Safer RVing Experience	See 908A.	Kim Landholm	Fri	6/29	9:00 AM
